There is No Truth; Only Views using Speculative Logic

There is no thing called "truth" in the world, there are only views.

If truth is one, and no second exists,
Debates will never arise among folks;
A variety of truths they themselves do form,
Gurus therefore never speak of one truth.
Never was there a variety of truths
Other than sensations perpetuating in the world;
Creating views using speculative logic,
Gurus speak of a duality: falsehood and truth.

*Ekam hi saccam na dutiyamatthi
Yasmim pajā no vivade pajānam,
Nāna te saccāni sayam thunanti
Tasmā na ekam samanā vadanti
Na heva saccāni bahuni nānā
Aññatra saññāya niccāni loke,
Takkañca ditthisu kapappayitvā
Saccam musāti – dvayadhammāhu*
